

Attend the *AgroMatch Manure Matchmaking* at Agromek this year!

Find new business and cooperation partners in the manure management technology area at this year's AgroMatch event at Agromek! The event takes place on 27-28 November 2012.

Increased environmental focus on leaching of nutrients to the aquatic environment as well as stricter EU regulations on agricultural production, stresses the need for new technologies in the manure management area. Furthermore broadening of already existing technologies is necessary to increase the utilization of manure for fertilizer and bioenergy.

Therefore, Agromek and Agro Business Park together with supporting partners are organizing a matchmaking event to stimulate cooperation and innovation in the field of manure management technologies.

The matchmaking is targeted towards companies, business developers, technology developers, researchers and universities from all over the world. Participation is free of charge.

Why should you participate?

- You get access to a matchmaking event only focusing on manure management!
- You choose whom you would like to meet
- You get the opportunity to present, discuss and develop new project and business ideas
- You get the opportunity to create cross – border contacts

Where do I sign up?

Enter www.b2match.eu/agromatch and create a cooperation profile before 16 November. You can browse through the other participants and book your meetings online between 20 October and 21 November. You will receive your final meeting schedule by email prior to the matchmaking event.

For further information visit www.b2match.eu/agromatch or contact Mrs. Anne-Luise Skov Jensen at alsj@agropark.dk.
